

Clinical Trial Centers AllianceSM

■ ■ an alliance of quality research services ■ www.alliancesites.com

ABOUT US

Clinical Trial Centers Alliance is a unique group of independent sites and services that share a sponsor relations team, best practices, and the common goal of providing quality data and enrollment.

Geographically and therapeutically diverse, we specialize in phase I-IV trial conduct, including best-in-class component services to support a full clinical program. We have conducted over 3,000 Phase I-IV inpatient and outpatient trials since 2000.
