HASSMAN RESEARCH INSTITUTE EARLY PHASE UNIT

Located on a large campus in Berlin, NJ, just twenty minutes from Philadelphia, [Hassman Research Institute](http://www.hassmanresearchinstitute.com) (HRI) is a leading clinical research organization conducting studies in a wide variety of therapeutic areas.

HRI's newly expanded Early Phase Unit can house up to 40 subjects in private or semi-private rooms. The secure inpatient unit has two separate wings, providing the controlled environment needed to accommodate separate patient populations as well as translational studies, QTc, ERP/QEEG, pain models, etc. Centrally located in the unit is the onsite Pharmacy with a ventilated laminar flow hood with compounding capabilities, and a CLIA Waived lab.

THOUGHT-LEADER EXPERTISE

HRI offers an outstanding team of experts who oversee the setup and conduct of each clinical study. Dr. Howard Hassman, CSO and Principal Investigator, has vast knowledge of clinical research with over 30 years of experience, and is considered an expert in the field of Psychopharmacology. Dr. Larry Ereshefsky, CSO, Early Phase Development, is an internationally recognized thought leader in clinical translational central nervous system research. Under their leadership, HRI is well-positioned to provide the scientific guidance and operational expertise needed to ensure the success of its clinical research.

KEY PERSONNEL

[Howard Hassman, DO](#)

CSO, Principal Investigator

Board Certified Family Practice

[Larry Ereshefsky, PharmD](#)

CSO, Early Phase Development

FACILITY

- 12,000 square feet of space
- Ample space to house 40 beds
- Pharmacy with laminar flow hood
- CLIA waived lab
- Private and semi-private rooms
- Dedicated monitor/rater rooms
- Two nursing stations
- Recreation rooms with computers, board games, and video games; TVs in every patient room; secure outdoor areas; kitchen facility
- Local hospital is < 1 mile away

CAPABILITIES & SERVICES

- Patient liaisons to enhance retention
- Dedicated recruitment staff with database of over 75,000 subjects
- Safety resources required for unique needs of [abuse liability](#) studies.
- QTC, SAD/MAD, PK/PD, Food Effect, First in Man, PSG, Healthy Volunteer, Drug to Drug Interaction

THERAPEUTIC AREAS

- Addictions • General Medicine • Hepatic and Renal • Human Abuse Liability (HAL) • Infectious Disease • Neurology • Pain • Psychiatry • Sleep • and more
