

Clinical Trial Centers AllianceSM

■ ■ an alliance of quality research services ■ www.alliancesites.com

ABOUT US

[Clinical Trial Centers Alliance](#) is a unique group of independently owned and operated specialty research clinics and gold standard service providers strategically located throughout the US.

Alliance sites have a proven track record of successfully conducting pain and pain modeling studies across all phases. Our team of Investigators includes board-certified physicians who hold DEA licenses and X waivers, and are experienced with schedule II drugs in trials.

Alliance sites have large, diverse patient databases; exclusive relationships with multi-specialty practices, hospitals, and clinics; and full-time recruitment staff. All use a Central IRB, and have dedicated regulatory and budget and contracts personnel for quick turnaround.

As CSO of [Alliance Early Phase](#) (AEP), [Dr. Larry Ereshefsky](#) offers KOL expertise in complex Phase 0-IIa trial designs. He is an internationally recognized thought-leader in clinical translational CNS research and a leader in the use of signal detection strategies to minimize placebo response.

PAIN STUDY INVESTIGATORS AND EARLY PHASE KOL

[Steven Reynolds, DO](#)

[Collaborative Neuroscience Network](#)

[Nirav Patel, MD](#)

[Collaborative Neuroscience Network](#)

[Omid Omidvar, MD](#)

[Collaborative Neuroscience Network](#)

[Michael Hassman, DO](#)

[Hassman Research Institute](#)

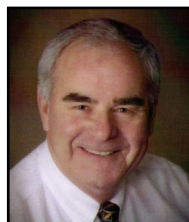

[Larry Ereshefsky, PharmD](#)

CSO, Alliance Early Phase

[Anand Mehta, MD](#)

[Pacific Research Partners](#)

[John D. Hudson, MD](#)

[FutureSearch Trials of Neurology](#)

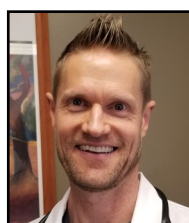

[Michael Downing, MD](#)

[FutureSearch Trials of Dallas](#)

[Ward Paine, MD](#)

[Exemplar Research](#)

[Beal Essink, MD](#)

[Oregon Center for Clinical Investigations](#)

[Drissana Tran, MD](#)

[Oregon Center for Clinical Investigations](#)

[Paula J. Lane, MD](#)

[Albuquerque Neuroscience](#)

PAIN INDICATIONS

- Chronic, severe, acute
- Fibromyalgia
- Migraine
- Neuropathic pain
- Opioid addiction
- [Abuse Liability](#)
- Osteoarthritis
- Post-surgical pain
- Restless leg syndrome

CAPABILITIES & EXPERIENCE

- Dedicated Phase I units in [California](#) (60+ beds) and [New Jersey](#) (30+ beds)
- Delivery methods: device, oral, implant, injectable, transdermal, infusion, sublingual, nasal implant, intra-articular injection, and ER formulations
- [Pain Modeling](#) (thermal/chemical/mechanical/electrical stimulation, UVB sunburn)
- Clean data and excellent diary compliance
- Language solutions for clinical trials
- [Top Enrolling Sites](#)
