■ ■ an alliance of quality research services ■ [www.alliancesites.com](http://www.alliancesites.com)

## ABOUT

Alliance Early Phase (AEP) combines thought-leader expertise in conducting complex Phase 0-2a trials across a range of patient and healthy populations.

We provide single- and two-site solutions, ensuring a synergistic approach to the clinical and scientific aspects of the trial.

Our two sites, Hassman Research Institute and CNS Network, exemplify operational excellence, providing clinical conduct of the highest quality.

## RESEARCH SITES

[Hassman Research Institute](#) is a clinical research site located on a large campus in Berlin, NJ. Its newly expanded [Early Phase Unit](#) can house up to 40 subjects. Separate wings provide the controlled environment needed to accommodate separate patient populations as well as translational studies.

[CNS Network](#) is a clinical research group operating three outpatient clinics located in the LA/Orange County area. The Long Beach facility offers a dedicated state-of-the-art [Clinical Pharmacology Unit](#) with 60 beds, and a 30-bed Joint Commission-accredited Psychiatric Health Facility.
