

# Clinical Trial Centers Alliance<sup>SM</sup>

■ ■ an alliance of quality research services ■ [www.alliancesites.com](http://www.alliancesites.com)

CCT Research offers an innovative approach to conducting clinical research for the prevention and treatment of Alzheimer's disease — embedding research facilities in senior living communities, bringing the trial directly to the patients. This approach allows access to many patients who otherwise may not participate in a trial. With experienced staff and an efficient delivery model, CCT aims to provide quality data and strong enrollment with Alzheimer's and other specialty populations.
