

Clinical Trial Centers AllianceSM

■ ■ an alliance of quality research services ■ www.alliancesites.com

CCT Research, a network of clinical research sites located in Arizona and Nebraska, has partnered with Center for Dermatology & Plastic Surgery (CDPS), the premier medical skincare and aesthetics practice in Greater Phoenix, to conduct dermatology studies.

Dr. Anthony Nuara, a Dermatologist at CDPS since 2014, and Dr. Gary McCracken, a thought leader in dermatology who founded CDPS in 2000, have extensive research experience. As Investigators for CCT, they seek to advance dermatological health by conducting trials for both pharmaceuticals and medical devices.

RECRUITMENT

The partnership with CDPS gives CCT access to a large patient database with over 100,000 individuals. In addition, CCT has a history of successful advertising for dermatology studies.
