

Cognitive Research Corporation

A full-service CRO specializing in CNS and early phase product development

A Seamless Extension of Your Organization

CRC provides services that are comprehensive, flexible, quality-driven, and cost-effective, allowing you to reach your goals in a timely, highly efficient manner.

A Proven Track Record of Success

With a unique depth of expertise in CNS populations and healthy subject protocols, the CRC team has decades of experience in successfully conducting clinical trials.

Since its inception in 2006, CRC has worked with over 70 sponsors and participated in hundreds of trials.

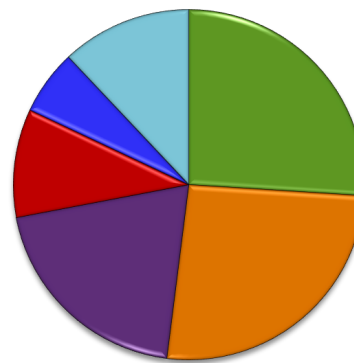

CRC brings deep expertise in trial design and protocol development, clinical trial management, data management, biostatistics, and other CRO services, combined with responsiveness, creativity, and a commitment to excellence.
