

Clinical Trial Centers AllianceSM

■ ■ an alliance of quality research services ■ www.alliancesites.com

Exemplar Research is a community-based specialty research clinic with an outpatient facility serving the North Central region of West Virginia. It is the only independent (non-University) study site in the region. Having worked with some of the largest pharmaceutical companies and CROs in the world, Exemplar is dedicated to the pursuit of excellence in all areas of clinical research from patient care and protection to data integrity. Exemplar has experienced Principal Investigators and seasoned clinical coordinators that are solely dedicated to research.

RECRUITMENT

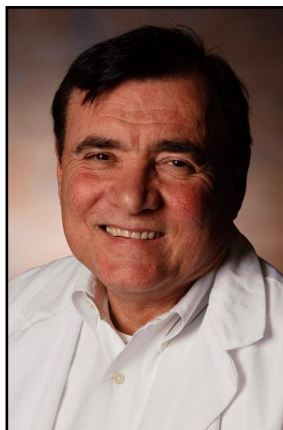

Exemplar Research has a proven track record of consistent subject recruitment and retention. With locations in “under-utilized” population areas, a large subject database, and an experienced dedicated recruitment staff, Exemplar has an average enrollment rate exceeding 100%.

INVESTIGATORS

Ward Jackson Paine, M.D.

Board Certified in Internal Medicine

Dino J. Delaportas, M.D.
