

Clinical Trial Centers AllianceSM

■ ■ an alliance of quality research services ■ www.alliancesites.com

INDICATIONS

ADHD
Alzheimer's Disease
Anxiety
Bipolar Disorder
Chronic Pain/ Migraine
Depression
Fibromyalgia
Gastrointestinal Disorders
Hypertension
Metabolic Disorders
Sexual Dysfunction
Schizophrenia

SITE FEATURES

Phase II – IV study capabilities
Central IRB
Emergency equipment available
MRI, PET, CSF collection
Referral relationships with
community clinics and medical
practices
Distance between nearest hospital
and research site – 500 yards
Large database

FULL TIME STAFF

4 Study Coordinators (incl. 3 CCRCs)
On-site Registered Nurse
Qualified Psychometric Raters
Regulatory Staff
Dedicated Recruiter

DEDICATED RESEARCH SITE

Albuquerque Neuroscience has successfully contributed to the development of many medications over our 25 years as a research site. We have conducted studies in depression and anxiety disorders, bipolar disorder, schizophrenia, sexual dysfunction, Alzheimer's and dementia, insomnia, chronic pain, general medical conditions, diabetes and constipation. We have a reputation with sponsors of being accommodating, honest and committed to providing quality data.

Our highly trained research staff includes physician Investigators in psychiatry and family practice, registered nurses, certified clinical research coordinators, and recruitment and administrative specialists. As part of the research process, we train and certify on Good Clinical Practices, psychometrics, structured diagnostic instruments, phlebotomy, ECG collection and the use of various electronic data collection platforms. We work with local compounding pharmacies, imaging centers and medical specialists in the community. Our capabilities include CSF collection, MRI and PET imaging and procedures often required in complex trial designs.

Glenn Michael Dempsey, M.D.

Paula J. Lane, M.D.

INVESTIGATORS

- **Glenn Michael Dempsey, M.D.**, our Principal Investigator, and Geraldine O. Dempsey, B.S.N., founded Albuquerque Neuroscience over 25 years ago to perform clinical trials of psychiatric medications.
- **Paula J. Lane, M.D.** has served as a Principal Investigator on more than 150 clinical trials in the areas of obesity, diabetes, cardiology and hypertension, constipation, osteoarthritis, rheumatoid arthritis and other chronic pain conditions.
- **Diane K. Combs, M.D.** is a board certified family physician and fellow of the American Academy of Family Physicians. She has over 30 years of private experience as well as research experience with Albuquerque Neuroscience Inc.
