

Clinical Trial Centers AllianceSM

■ ■ an alliance of quality research services ■ www.alliancesites.com

ABOUT US

Clinical Trial Centers Alliance is a unique group of independently owned and operated specialty research clinics and service providers located throughout the US. Linked by the desire to foster mutual growth and quality in the clinical trials we conduct, Alliance members exchange best practices and expertise in various therapeutic areas, and share a business development and sponsor relations team. The Alliance includes internationally-known KOLs in early phase and complex trial design, cognition, driving simulation, neuroscience, Asian bridging, digital technologies, and regulatory and pricing strategies.

EARLY PHASE RESEARCH

APEX EARLY PHASE

[Apex Early Phase](#) is a partnership between Hassman Research Institute and CNS Research offering unique capabilities to accelerate drug development. With thought-leader expertise in study design and execution, AEP provides single- and two-site solutions for all your early phase study needs including complex Phase I-IIa/POC trials.

AFFILIATED SERVICES

Solutions for evaluating driving impairment from [Cognitive Research Corporation](#).

Clinical assessments and trial services such as rater training, data management, and language services from [VeraSci](#).

SENIOR SPONSOR RELATIONS TEAM

A seamless resource to sponsors and CROs.

Bobbie Theodore, M.S.

Executive Director

Annie Speno

Sr. Director of BD

Jeanette Caruso

Sr. Director of BD

The Alliance is a division of [Apex Innovative Sciences](#)
